Annual Index
Index to Volume 11, Numbers 1 through 6

The index to Volume 11 of *Clinical Laboratory Science* is composed of two parts: an author index and a subject index (p 381).

Issue	Pages
January/February	1 – 64
March/April	65 – 128
May/June	129 – 192
July/August	193 – 256
September/October	257 – 320
November/December	321 – 384

Abbreviations used:
AB = Abstract
BR = Book Review
CE = Continuing Education
CP = Clinical Practice
CR = Case Report
DD = Dialogue and Discussion
FE = Feature
FO = Focus
LE = Letter to Editor
RR = Reports and Reviews
RS = Research
SN = Student News
TT = Trends and Technology
WB = Washington Beat

AUTHOR INDEX

Amerson, Rebecca
The Key to Writing a Successful Procedure According to NCCLS. 102. AB
Anderson, Shauna C
Body of Knowledge: An Update. 273. CP
Andrews, Gerard P
The Enteric *Campylobacter*: They are Everywhere. 305. FO
Argast, George
The Design and Realization of Re-Engineering Phlebotomy Services: A Qualitative, Preliminary Study. 215. AB
ASCLS
Clinical Laboratory Science Announces 1997 Distinguished Author Award Recipients. 130. DD
Value of Laboratory Testing. 66. DD
Axelrod, Hedy
A Method Comparison of Digoxin: Abbott Axsym versus Abbott TDx. 214. AB
Ball, Loretta
Comparison of Four Latex Kits for Detection of *E. Coli* O157. 266. CP
Barrett, Christine
A Step-By-Step Approach to Identifying Unexpected Antibodies. 104. AB
Bawazeer, Ahmed S
Bactericidal Activity of Strepsils Lozenges Against Group A and Group C *Streptococci*. 215. AB
Becker, Sally
Clinical Laboratory Radioimmunoassay Usage. 9. CP
Belanger, Anne C
Tips for Complying with JCAHO's Most Challenging Laboratory Standards. 180. FO
Best, Hilda A
Different Reagent/Instrument Combinations with Thromboplastins May Cause Discrepancies in International Normalized Ratios (INR). 217. AB
Discrepancies in International Normalized Ratios (INR) in Swine and Humans. 156. RS
Is a Second Tube Necessary When Drawing Specimens for Coagulation Testing? 219. AB
Bigler, William N
CLS Advanced Degrees and Career Enhancement. Part 1-Comparison of Career Data. 21. RS
CLS Advanced Degrees and Career Enhancement. Part 2-A Comparison of Perceptions. 28. RS
Blackwood, Linda L
CLS Advanced Degrees and Career Enhancement. Part 1-Comparison of Career Data. 21. RS
CLS Advanced Degrees and Career Enhancement. Part 2-A Comparison of Perceptions. 28. RS
Boisvert, William H
Georgia's Hospital Based Laboratory Cross Training Needs. 216. AB
Laboratory Cross Training Needs Assessment. 174. RR
Border, Barbara G
Clinical Laboratory Radioimmunoassay Usage. 9. CP
Bottjen, Peg
Development of a Self-Study Unit on Cultural Diversity, Emphasizing the Native American Culture. 216. AB
Bourgeois, Karrie
Networking: Vital to a Student's Career. 67. SN
The Isolation of a Nosocomial Pathogen from a Blood Bank Waterbath. 219. AB
What Your National Organization Can Do for You! 324. SN
Bowman, Scott
Vancomycin-Resistant Enterococci; The Ultimate Nosocomial Pathogen? 133. CP
Boyd, Joan L
Calcium, Phosphorus, and Alkaline Phosphatase Values of Elderly Subjects. 223. RS
Brickell, Jean
From Student Laboratory to Clinical Environment. 167. RR
Brickey, David A
Different Reagent/Instrument Combinations with Thromboplastins May Cause Discrepancies in International Normalized Ratios (INR). 217. AB
Discrepancies in International Normalized Ratios (INR) in Swine and Humans. 156. RS
Brothwell, Barbara
Toxicity Associated with Iron Overload Found in Hemochromatosis: Possible Mechanism in a Rat Model. 350. RS
Brown, Aldine
Surfing the Wave of Clinical Laboratory Science Evolution in Hawai'i. 269. CP
Brown, Karen A
A Cooperative MLT Program Between a Community College and a University. 262. CP
Burns, Cheryl
Changes in the Healthcare Environment: How We Met the Challenge. 101. AB
Butch, Suzanne H
Modifying Blood Bank Processes for Efficiency and Effectiveness: A Case Study. 114. FO
Caskey, Cheryl
Latex Sensitivity-A Safety Hazard. 18. CP
Chan, Edward
Comparison of Four Latex Kits for Detection of *E. Coli* O157. 266. CP
Christensen, Kelly
Web Based Instruction Template. 105. AB
Coile, Russell C Jr
Health Care 2000: Part 2-Managed Care. 82. CP
Health Care 2000: Part 3-Integration Strategies. 137. CP
Croft, Garth F
A Cooperative MLT Program Between a Community College and a University. 262. CP
Czekaj, Felicia A
A Method Comparison of Digoxin: Abbott Axsym versus Abbott TDx. 214. AB
The Design and Realization of Re-Engineering Phlebotomy Services: A Qualitative, Preliminary Study. 215. AB
Davis, Gerald L
Introduction to Platelet Update. 355. FO
Platelet Specific Alloantigens. 356. FO
Davis, John S
A Creative Approach to Introducing a Lecture. 101. AB
Acute Pancreatitis and Marked Hypertriglyceridemia in a Postmenopausal Patient. 218. AB

ANNUAL INDEX

American Society of Clinical Pathologists
Tracing Our Roots: The Beginnings of a Profession. 161. RR
Tracing Our Roots: The Broadening Horizons of Clinical Laboratory Practice (1945-62). 339. RR
American Society of Medical Technology
Tracing Our Roots: A Professional Identity Emerges: 1928 to 1945. 275. RR
Antibody Identification
A Step-by-Step Approach to Identifying Unexpected Antibodies. 104. AB
Apoptosis
Apoptosis: Molecular Mechanism for Physiologic Cell Death. 346. RR
ASCLS
Financial Statement. 125.
Value of Laboratory Testing. 66. DD
Aspartate Transaminase
Toxicity Associated with Iron Overload Found in Hemochromatosis: Possible Mechanism in a Rat Model. 350. RS
Assay Developments
Significant Developments in Biochemistry, Urinalysis, and Ligand Assays. 328. CP
Automated Antigen-Antibody Testing
'New' Blood Bank Technologies. 106. FO
Automated Methods
Automated Methods in Urinalysis. 44. FO
Bactericidal Activity
Bactericidal Activity of Strepsils Lozenges Against Group A and Group C Streptococci. 215. AB
Biochemical Indicator
Inclusion of Lactate Level as an Indicator of Biochemical Response in Development of a Protocol for Use of a Motorized Climbing Wall. 215. AB
Blood
Hematologic Changes Associated with Infection. 239. FO
Blood Bank Technology
'New' Blood Bank Technologies. 106. FO
Blood Cell Count
Hematologic Changes Associated with Infection. 239. FO
Blood Platelets
Platelet Function Testing by Flow Cytometry. 365. FO
Board of Registry
Tracing Our Roots: The Beginnings of a Profession. 161. RR
Tracing Our Roots: The Broadening Horizons of Clinical Laboratory Practice (1945-62). 339. RR
Body of Knowledge
Body of Knowledge: An Update. 273. CP
C. jejuni
The Enteric Campylobacter: They are Everywhere. 305. FO
CAI
Development of CAI Using ToolBook. 105. AB
Laboratory Cross Training Needs Assessment. 174. RR
Calcium
Calcium, Phosphorus, and Alkaline Phosphatase Values of Elderly Subjects. 223. RS
***Campylobacter* Infections**
Foodborne Illness: Is the Public at Risk? 291. FO
Campylobacter
The Enteric Campylobacter: They are Everywhere. 305. FO
Career Enhancement
CLS Advanced Degrees and Career Enhancement. Part 1-Comparison of Career Data. 21. RS
CLS Advanced Degrees and Career Enhancement. Part 2-A Comparison of Perceptions. 28. RS
Cell Surface
Hematologic Changes Associated with Infection. 239. FO
Change Management
Modifying Blood Bank Processes for Efficiency and Effectiveness: A Case Study. 114. FO
Surfing the Wave of Clinical Laboratory Science Evolution in Hawai'i. 269. CP
Changes in Healthcare
Changes in the Healthcare Environment: How We Met the Challenge. 101. AB
Chinese Health Care
Chinese CLS Sister School Relationship. 13. CP
Clinical Affiliates
Using Military Facilities as Clinical Affiliates. 104. AB
Clinical Chemistry Education
From Student Laboratory to Clinical Environment. 167. RR
Clinical Laboratories
Clinical Laboratory Radioimmunoassay Usage. 9. CP
Tracing Our Roots: Early Clinical Laboratory Scientists and Their Work-Myth and Reality. 209. RR
Tracing Our Roots: Origins of Clinical Laboratory Science. 5. DD
Tracing Our Roots: The Beginnings of a Profession. 161. RR
Tracing Our Roots: The First Clinical Laboratory Scientist. 97. RR
Clinical Laboratory History
Tracing Our Roots: A Professional Identity Emerges: 1928 to 1945. 275. RR
Tracing Our Roots: Origins of Clinical Laboratory Science. 5. DD
Tracing Our Roots: The Broadening Horizons of Clinical Laboratory Practice (1945-62). 339. RR
Clinical Laboratory Science
The Quest for Professional Recognition. 35. RR
Tracing Our Roots: A Professional Identity Emerges: 1928 to 1945. 275. RR
Tracing Our Roots: Early Clinical Laboratory Scientists and Their Work – Myth and Reality. 209. RR
Tracing Our Roots: Origins of Clinical Laboratory Science. 5. DD
Clinical Laboratory Science Curriculum
A Model for Clinical Laboratory Science Curriculum Design. 102. AB
Curriculum Design: Questions to Ask. 78. CP
Key Elements and Processes Needed in Curriculum Design. 70. FE
Clinical Laboratory Science Education
From Student Laboratory to Clinical Environment. 167. RR
Learning Styles and Outcomes in Clinical Laboratory Science. 287. RS
Tracing Our Roots: The Beginnings of a Profession. 161. RR
Tracing Our Roots: The Broadening Horizons of Clinical Laboratory Practice (1945-62). 339. RR
Clinical Laboratory Science History
Tracing Our Roots: The Beginnings of a Profession. 161. RR
Tracing Our Roots: The First Clinical Laboratory Scientist. 97. RR
Clinical Laboratory Science Students
Clinical Laboratory Radioimmunoassay Usage. 9. CP
Coagulation
Is a Second Tube Necessary When Drawing Specimens for Coagulation Testing? 219. AB
Competence Assurance
Body of Knowledge: An Update. 273. CP
Computer Assisted Instruction
Laboratory Cross Training Needs Assessment. 174. RR
Continuing Education
Answers to 1996 Focus Continuing Education Questions. 56. CE
Laboratory Cross Training Needs Assessment. 174. RR
Cross Training
Georgia's Hospital Based Laboratory Cross Training Needs. 216. AB
Curriculum
A CLS Curriculum Change that Prepares Graduates for the 21st Century. 220. AB
Curriculum Design
Curriculum Design: Questions to Ask. 78. CP
Key Elements and Processes Needed in Curriculum Design. 70. FE
Curriculum Integration
From Student Laboratory to Clinical Environment. 167. RR
Curriculum Model
Curriculum Design: Questions to Ask. 78. CP
Key Elements and Processes Needed in Curriculum Design. 70. FE
Cytokines
Hematologic Changes Associated with Infection. 239. FO
Deep Vein Thrombosis
Hematologic Effects of Thrombophilia. 233. FO
DNA Oxidation
Toxicity Associated with Iron Overload Found in Hemochromatosis: Possible Mechanism in a Rat Model. 350. RS
Drug Identification
Identification of Drugs of Abuse on Urine Samples.214. AB
E. coli
Comparison of Four Latex Kits for Detection of *E. coli* O157. 266. CP

ANNUAL INDEX

Emerging Foodborne Pathogens: Enterohemorrhagic *Escherichia coli*. 298. FO
Foodborne Illness: Is the Public at Risk? 291. FO

Editorial
A Journal for a United Profession. 2. DD
Bridging Healthcare and Technology. 131. DD
Building the Bridge as We Walk on It. 322. DD
Can You Afford NOT to Attend? 198. DD
Evidence Based Practice. 196. DD
Keeping Clinical Laboratory Science Alive. 3.DD

Education
A Creative Approach to Introducing a Lecture. 101. AB
Developing Web-Based Courses in Clinical Laboratory Science Programs. 104. AB
Minimizing Instructor Bias in the Evaluation of Student Affective Domain. 102. AB
Minority Student Persistence in Clinical Laboratory Education. 102. AB
Technology Assisted Self Directed Clinical Microscopy Rotation. 104. AB
Web Based Instruction Template. 105. AB

Elderly
Calcium, Phosphorus, and Alkaline Phosphatase Values of Elderly Subjects. 223. RS

Enteric Pathogens
The Enteric Campylobacter: They are Everywhere. 305. FO

Exchange Students
Chinese CLS Sister School Relationship. 13. CP

Fetal-Maternal Hemorrhage
Weak D Effect on Estimating Fetal-Maternal Hemorrhage: A Case Study. 204. CP

Fish Poisoning
Fish and Shellfish Poisoning. 309. FO

Flow Cytometry
Platelet Function Testing by Flow Cytometry. 365. FO

Foodborne Pathogens
Emerging Foodborne Pathogens: Enterohemorrhagic *Escherichia coli*. 299. FO
Foodborne Illness: Is the Public at Risk? 291. FO

Future Roles of CLS
Surfing the Wave of Clinical Laboratory Science Evolution in Hawai'i. 269. CP

Health Care Future Directions
Health Care 2000: Part 2-Managed Care. 82. CP
Health Care 2000: Part 3-Integration Strategies. 137. CP

Hematography
Hematography: Interactive Computer Tutorials and Case Studies for Blood Cell Identification. 105. AB

Hematology Education
From Student Laboratory to Clinical Environment. 167. RR

Hematopoietic System
The Effects of Acute and Chronic Alcohol Abuse on the Hematopoietic System. 229. FO

Hemochromatosis
Toxicity Associated with Iron Overload Found in Hemochromatosis: Possible Mechanism in a Rat Model. 350. RS

Hemolytic Uremic Syndrome
Emerging Foodborne Pathogens: Enterohemorrhagic *Escherichia coli*. 298. FO

Hemorrhagic Colitis
Emerging Foodborne Pathogens: Enterohemorrhagic *Escherichia coli*. 298. FO

Hemostasis Tests
Hematologic Effects of Thrombophilia. 233. FO

History
Tracing Our Roots: Early Clinical Laboratory Scientists and Their Work – Myth and Reality. 209. RR

HIV
Urinary HIV-1 Antibody Patterns by Western Blot Assay. 336. CP

Human Platelet Antigens
Platelet Specific Alloantigens. 356. FO

Hypertriglyceridemia
Acute Pancreatitis and Marked Hypertriglyceridemia in a Postmenopausal Patient. 218. AB

Immune Thrombocytopenic Purpura
Platelet Specific Alloantigens. 356. FO

Immunoassay
Clinical Laboratory Radioimmunoassay Usage. 9. CP

Infection
Hematologic Changes Associated with Infection. 239. FO
Invasive *Vibrio vulnificus* Infection. 217. AB

Inflammation Mediators
Hematologic Changes Associated with Infection. 239. FO

Information Superhighway
Finding the On Ramp: Accessing the Information Superhighway. 85. CP

Instructions to Authors
Instructions to Authors. 60.

International Normalized Ratios
Different Reagent/Instrument Combinations with Thromboplastins May Cause Discrepancies in International Normalized Ratios (INR). 217. AB
Discrepancies in International Normalized Ratios (INR) in Swine and Humans. 156. RS

Internet
Finding the On Ramp: Accessing the Information Superhighway. 85. CP

Iron Overload
Toxicity Associated with Iron Overload Found in Hemochromatosis: Possible Mechanism in a Rat Model. 350. RS

JCAHO
One Year as a JCAHO Laboratory Surveyor. 183. FO
The JCAHO Laboratory Survey Process. 178. FO
Tips for Complying with JCAHO's Most Challenging Laboratory Standards. 180. FO

Laboratory Accreditation
One Year as a JCAHO Laboratory Surveyor. 183. FO
The JCAHO Laboratory Survey Process. 178. FO
Tips for Complying with JCAHO's Most Challenging Laboratory Standards. 180. FO

Laboratory Assistants
Tracing Our Roots: The Broadening Horizons of Clinical Laboratory Practice (1945-62). 339. RR

Laboratory Automation
'New' Blood Bank Technologies. 106. FO

Laboratory Cross Training
Laboratory Cross Training Needs Assessment. 174. RR

Laboratory Instrumentation
Development of a Computer Simulation for Laboratory Planning. 280. RS

Laboratory Management
Development of a Computer Simulation for Laboratory Planning. 280. RS
Management as a Microbiology Laboratory Exercise. 220. AB

Lactate Dehydrogenase
Toxicity Associated with Iron Overload Found in Hemochromatosis: Possible Mechanism in a Rat Model. 350. RS

Latex Allergies
Latex Sensitivity – A Safety Hazard. 18. CP

Latex Sensitivity
Latex Sensitivity – A Safety Hazard. 18. CP

Learning Outcomes
Learning Styles and Outcomes in Clinical Laboratory Science. 287. RS

Learning Styles
Learning Styles and Outcomes in Clinical Laboratory Science. 287. RS

Letter to the Editor
Correction. 130.

Malaria
An Unusual Presentation of Malaria. 217. AB
Effects of Malaria on Hematological Parameters During Pregnancy. 218. AB

Managed Care
Health Care 2000: Part 2 Managed Care. 82. CP
Health Care 2000: Part 3 Integration Strategies. 137. CP

Malaria
An Unusual Presentation of Malaria. 217. AB
Effects of Malaria on Hematological Parameters During Pregnancy. 218. AB

Medical Laboratory Technician Education
A Cooperative MLT Program Between a Community College and a University. 262. CP

Medical Technology Education
A Cooperative MLT Program Between a Community College and a University. 262. CP
Learning Styles and Outcomes in Clinical Laboratory Science. 287. RS

Method Comparison
A Method Comparison of Digoxin: Abbott Axsym versus Abbott TDx. 214. AB
A Method Comparison Student Laboratory for Evaluation of a Point of Care Instrument Utilizing EP_Suite for Windows. 105. AB
Comparison of Protocol Latex Kits for Detection of *E. coli* O157. 266. CP
Comparison of Two Different Methods for Detection of Total Complement Activity. 216. AB

ANNUAL INDEX

Monoclonal Antibodies
Platelet Function Testing by Flow Cytometry. 365. FO
Mycobacteria
Mycobacterium abscessus Peritonitis: A Case Report. 206. RR
Neonatal Alloimmune Thrombocytopenia
Platelet Specific Alloantigens. 356. FO
Nosocomial Infections
Vancomycin-Resistant Enterococci; The Ultimate Nosocomial Pathogen? 133. CP
P.A.C.E.®
Laboratory Cross Training Needs Assessment. 174. RR
Pathogens
The Isolation of a Nosocomial Pathogen from a Blood Bank Waterbath. 219. AB
Parathyroid Hormone
Intact PTH Study: Shipping Frozen vs. Unfrozen Samples. 201. CP
Peritoneal Dialysis
Mycobacterium abscessus Peritonitis: A Case Report. 206. RR
Peritonitis
Mycobacterium abscessus Peritonitis: A Case Report. 206. RR
Phlebotomy
The Design and Realization of Re-engineering phlebotomy Services: A Qualitative Preliminary Study. 215. AB
Phosphorus
Calcium, Phosphorus, and Alkaline Phosphatase Values of Elderly Subjects. 223. RS
Physiological Cell Death
Apoptosis: Molecular Mechanism for Physiologic Cell Death. 346. RR
Platelet Function
Platelet Function Testing by Flow Cytometry. 365. FO
Platelet Glycoproteins
Platelet Specific Alloantigens. 356. FO
Position Paper
Value of Laboratory Testing. 66. DD
President's Annual Report
President's Annual Report 1997-98. 258. DD
President's Message
Building a Bridge for ASCLS. 325. DD
Process Improvement
Modifying Blood Bank Processes for Efficiency and Effectiveness: A Case Study. 114. FO
Professional Acknowledgment for Continuing Education
Laboratory Cross Training Needs Assessment. 174. RR
Professional Goals
Surfing the Wave of Clinical Laboratory Science Evolution in Hawai'i. 269. CP
Professional Recognition
The Quest for Professional Recognition. 35. RR
Professionalization
The Quest for Professional Recognition. 35. RR
Program Funding
Reducing Reliance on State Funding for Clinical Laboratory Science and Cytotechnology Programs at a State Supported University. 103. AB
Programmed Cell Death
Apoptosis: Molecular Mechanism for Physiologic Cell Death. 346. RR
Prothrombin Times
Discrepancies in International Normalized Ratios (INR) in swine and Humans. 156. RS
Protocol Development
The Key to Writing a Successful Procedure According to NCCLS. 102. AB
Radioimmunoassay
Clinical Laboratory Radioimmunoassay Usage. 9. CP
Receptor Selectivity
Changing a Ligand's Receptor Selectivity: Studies Using Snake Venom Disintegrins and the Cell Surface Receptors for Fibrinogen (FnR), Vitronectin (VnR), and Fibronectin (FnR). 219. AB
Receptors
Hematologic Changes Associated with Infection. 239. FO
Reference Ranges
Calcium, Phosphorus, and Alkaline Phosphatase Values of Elderly Subjects. 223. RS
Rural Health
Outcomes of Rural Health Education Project. 103. AB
***Salmonella* Infections**
Foodborne Illness: Is the Public at Risk? 291. FO
Seafood Borne Illnesses
Fish and Shellfish Poisoning. 309. FO
Sedimentation Rate
The Effect of Albumin and Fibrinogen on the Erythrocyte Sedimentation Rate. 218. AB
Self Study
Development of a Self Study Unit on Cultural Diversity, Emphasizing the Native American Culture. 216. AB
Shellfish Toxins
Fish and Shellfish Poisoning. 309. FO
Simulation
Development of a Computer Simulation for Laboratory Planning. 280. RS
From Student Laboratory to Clinical Environment. 167. RR
Specialization
Tracing Our Roots: The Broadening Horizons of Clinical Laboratory Practice (1945-62). 339. RR
Student News
Networking: Vital to a Student's Career. 67. SN
What Your National Organization Can Do for You! 324. SN
Student Profile
A Profile Study of University Based Clinical Laboratory Science and Cytotechnology Students. 103. AB
Survey Process
One Year as a JCAHO Laboratory Surveyor. 183. FO
The JCAHO Laboratory Survey Process. 178. FO
Tips for Complying with JCAHO's Most Challenging Laboratory Standards. 180. FO
Technology Transfer
It's Only a Matter of Time. 91. CP
Thrombophilia
Hematologic Effects of Thrombophilia. 233. FO
Thrombotic Thrombocytopenic Purpura
von Willebrand Factor in the Pathophysiology of Thrombotic Thrombocytopenic Purpura. 362. FO
Total Quality Management
Modifying Blood Bank Processes for Efficiency and Effectiveness: A Case Study. 114. FO
Training Programs
Tracing Our Roots: The First Clinical Laboratory Scientist. 97. RR
Transfusion Service
Modifying Blood Bank Processes for Efficiency and Effectiveness: A Case Study. 114. FO
TTP
von Willebrand Factor in the Pathophysiology of Thrombotic Thrombocytopenic Purpura. 362. FO
Urinalysis
Automated Methods in Urinalysis. 44. FO
Urinary Albumin Measurement
Use of Albumin/Creatinine Ratio to Measure Urinary Albumin Excretion After Physical Activity. 215. AB
Vaginal Infections
Laboratory Diagnosis of Vaginal Infections. 47. FO
Vancomycin-Resistant Enterococci
Vancomycin-Resistant Enterococci; The Ultimate Nosocomial Pathogen? 133. CP
von Willebrand Factor
von Willebrand Factor in the Pathophysiology of Thrombotic Thrombocytopenic Purpura. 362. FO
Washington Beat
ASCLS and the Negotiated Rulemaking Process. 261. WB
Managed Care to be Regulated? 323. WB
Model Compliance Plan. 68. WB
The ASCLS-Advocacy Connection. 197. WB
Will Congress Respond to Consumer Health Care Concerns? 132. WB
Weak D Effect
Weak D Effect on Estimating Fetal-Maternal Hemorrhage: A Case Study. 204. CP
Western Blot
Urinary HIV-1 Antibody Patterns by Western Blot Assay. 336. CP
Written Procedures
The Key to Writing a Successful Procedure According to NCCLS. 102. AB
